(Hereinafter called as Partners)

2. Preamble:

The Art of Living (TAOL) is a charitable trust bringing in transformation in India through The Art of Living Training Programs and implementing a broad range of service projects to uplift and empower individuals, families, and communities so that the full potential of human life can be expressed.

The various institutional training programs of the Art of Living are globally recognised to equip and empower both students, faculty and staff with necessary tools and techniques for all round excellence. The training programs for students and faculty are both designed and customised to cater to the specific issues faced by each. The training programs help individuals to build life skills, leadership skills, communication skills, human values, interpersonal and behavioural competencies through practical, interactive and simple yet highly effective methods which draw upon ancient timeless wisdom. The co-curricular and extra-curricular activities develop versatile students who actively contribute a lot in their professional and social life.

3. The Objective:

The 'Partners', decided that it was mutually beneficial to have a formal understanding between them in sensitizing the students, faculty and staff of the MTNS about The Art of Living Training Programs.

The purpose of education is to prepare a person for life. To an experienced educationist, it is a well-known fact that the age group of 18-30 years is extremely crucial. This is the age where issues of career, relationships, peer/parental pressures, and anxiety about the future all come to the fore simultaneously. For youth bogged down by these issues, academic/professional performance and development to their full potential suffers. Nowhere, neither at home nor at school, have we been taught how to deal with our stress and negative emotions.

WHO defines Life Skills as 'the abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demand and changes of everyday life.' The Art of Living programs are specially designed to develop the Knowledge Aspects which the New Education Policy (NEP) 2020 refers to as "liberal arts" – soft skills such as communication, discussion, debate, teamwork, social and moral awareness.

This partnership between TAOL and MTNS aims to train students in the above knowledge aspects of "Liberal Arts" to give students a holistic, multi-disciplinary & value-based education via TAOL's tried and tested student development programs to develop all capacities of human beings - intellectual, aesthetic, social, physical, emotional, and moral in an integrated manner.

i) **Programs offered by TAOL:** Life Skills Training (LIST) Program for students aged 18+

ii) **Program Content:**

The programs cover one or more of the following modules, depending on the profile of the participants:

- Mind management to cope with stress and emotions, especially exam stress
- Interpersonal relationships & people skills - Empathy and human values
- Improved concentration, confidence, and motivation
- Responsibility, initiative & leadership
- Time Management and teamwork
- Healthy habits & environment
- Social Responsibility and Global Citizenship
- Well Being (restore sleep, appetite - circadian rhythm of the body)
- Self-awareness, positive attitudes & behavior

- Effective listening, communication skills, and decision-making

Both the partners have thus arrived at an understanding as indicated below:

4. Details of Understanding:

The Partners, after due consideration of various aspects, have arrived at the following understanding in respect of the programs mentioned in the earlier paragraphs.

(4)(i). TAOL undertakes to impart specifically the following programs: Life Skills Training (LIST) Program for students (18+ yrs in age)

- The LIST program runs over for 5 consecutive days for a total of 10 hours (2 hours each day).
- TAOL shall provide faculty to conduct introductory seminars for the LIST programs.

(4)(ii). MTNS shall:
